

 **4th**
HOMESSEC EXPO 2019
Dhaka, Bangladesh

PRESS RELEASE: 01/03/2019, New Delhi, India

Bangladesh had the second largest relative increase in military spending between 2008 and 2017 according to the arms watchdog Stockholm International Peace Research Institute (SIPRI). Bangladesh has announced a 2018-19 defence budget of BDT290.66 billion (USD3.45 billion). The 2018-19 defence budget also amounts to 6.2% of total annual government expenditure and about 1.3% of GDP. There is approximately 24% increase in military acquisitions. The cumulative budget of Defence and Internal Security is around USD 6.00 Billion for 2017-18.

There are around 204,596 active personnel and 963,900 reserve personnel. Increasing in budget capacities and defence expenditure becomes more inclined toward modern weapon technology and offsets secured. It show Bangladesh grows rapidly because political stability and continuity of the government. Bangladesh Police and Paramilitary forces are also in dire need of modernisation where forces lack modern small arms, ammunition and technology. The organized crime and threat of extremism is pushing Bangladesh Police and Security Forces to address their overdue requirements of modernisation, hence the exhibition is perceived as instrumental tool to bridge the gap of introduction of modern arms, technology and equipment.

Homeland Security Expo 2019
